Boss 135

NEW

New Boss 135 camera crawler further expands the CamBoss series and thus contributes to greater variability of the entire system. Boss 135 construction is based on the very popular model of the lower series, from which it took over the simplicity and user friendliness. It is especially suitable for simpler inspection work, where it is not necessary crawler turning or change the height of the manual pantograph in the pipeline.

- Range of application DN 150 to DN 800
- LED lights with an output of 18W for perfect lighting conditions
- The crawler is equipped with MAXON brushless motors with an output of 75 W and a long life
- Camera head KZ95CB
- The possibility to equip the camera head with lasers suitable for example for cracks measuring or point measurement
- Monitoring of internal pressure, watertightness of the crawler up to 1 bar
