

ECOPOWER

The high-pressure cleaning machine IBOS EcoPower is intended for cleaning pipes DN 50 - DN 400. The machine can be driven by its own high-performance drive unit (KUBOTA petrol engine) or by a secondary undercarriage drive (PTO). The cleaning machine is equipped with water tanks with a volume of min. 2 x 400 l. and radio remote control. The above-standard performance of the machine will provide values of up to 85 l / 180 bar. It's the right choice when you need real power.

Accessories:

- Electrically controlled high-pressure reel , 180° rotatable
- High pressure hose
- Filling hose
- Pressure relief valve
- 800 - 1000 L water tank with bottom drain
- Tank filling with "C" type flange
- Central switch
- Motohours meter
- Remote control

Some of the optional items:

- Wide range of nozzles
- Unwinding and winding of the high-pressure hose via cross spindle system and automatic adjustment via integrated hose guiding system
- Lining of the cargo area of the vehicle with aluminum sheet
- Protection against dry-drive (pump)
- Other variants of the volume of water tanks
- Work light fixed / magnetic
- Second pressure hose instead of filling hose
